

# Measurement and Modelling of the Pore-Level Properties of Paper Products Appraisal form

One-day short course at SCA, Sundsvall

17<sup>th</sup> February 2004

Please tick **ONE** of the grey boxes on each row

		☹				☺			☺
		Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree			
Facilities	The accommodation for the training was very good				XXXX	XX			
	The computing and presentation equipment for the meeting was excellent				XXXX	XXX			
	The meeting was very well organised				XXXX	XXX			
Presentation	The presentation was engaging and very well presented				XXX	XXXX			
	The presentation was scientifically interesting			X	XXXX	XXX			
	The presentation was at an appropriate academic level			XX	XXX	XX			
	The supporting literature was clear, informative and useful			X	XX	XX			

The best aspect of the training session was: *“Good introduction to Pore-Cor”, “The fundamentals”, “Presentation and computer calculation”, “The practise on the computer”*

The presentation could have been improved in the following way: *“More theory”, “More theory”, “More practise on the computer”*.

Other comments: *“Now we need to practise more and then the difficulties will be to understand input data and ‘correct’ model to use. Look forward to have another seminar with more focus on paper/coating related topics.”*
